2 Introduction and Background to the Project / Programme

BACKGROUND

The Government of Bangladesh, after successfully achieving the Millennium Development Goals, has a strong commitment towards achieving Sustainable Development Goals to establish an inclusive society. The newly elected government has reaffirmed its prioritisation of the disability sector and other disadvantaged sectors to ensure an inclusive growth for Bangladesh.

British Council Bangladesh's priority is to contribute to the development of more stable, inclusive and open societies in Bangladesh. British Council Bangladesh Arts programming, focusing on the theme *Arts for Social Change* - has created a solid track record of using arts as a tool to bring positive social change. We have been the pioneer in working with the first ever disability theatre in Bangladesh.

PURPOSE OF THE PROJECT

A number of development projects focusing on the disability sector have been delivered in Bangladesh. A good number of NGOs, development partners and organisations dedicated to the welfare of disabled people are working in this sector in Bangladesh. Most of these projects were designed to develop traditional life/livelihood skills of disabled individuals. Although these approaches have been successful in better livelihood for the beneficiaries, hardly any projects have addressed the issue of general perception about the disability sector.

There has always been a disconnect in society between persons with disabilities and those without. The main reason for this is that disability is perceived as a taboo, as something to be ashamed of. The social stigma about disability is worse in suburban and rural areas of Bangladesh, with families placing physical and psychological restrictions on disabled members on interacting with the wider society. Disability thus creates tensions and places obstacles in the way of achieving an inclusive and harmonised society. The Disability Arts project will work to dispel the social stigma associated with disability, and build a bridge between arts, disability and society.

Arts has always been appreciated by Bangladeshis as a medium of expression and artists have been accepted with positive image in wider Bangladeshi societies. This project on Disability Arts will work build on that goodwill towards creating positive perception changes regarding disability and empowering disabled people through innovative approaches. It will bring the arts and the disability communities together using arts as medium to build their confidence, develop their creative skills and connect with the wider society positively.

OBJECTIVES

The overarching aim of this project is to engage the disability and arts sector together for a mutually beneficial outcome that will empower the people with disabilities to connect with the wider society confidently by creating a sustainable platform for new innovative arts practices. This disability arts project will have five key specific objectives:

- Empower the people with disability by developing their core creative skills, specifically focusing on arts, to boost their confidence to connect with the wider society positively.
- Develop the artists and arts organisations' skills to equip them to be able to work with people with disability.
- Support the creation of a sustainable national platform to share the best practices and develop skills and knowledge by connecting with South Asian and the UK's disability arts practitioners.
- Support the local artists and disability communities with improved communication, to engage with local and national institutions for reducing barriers towards achieving an inclusive society.
- Gather evidence to create a track record of using arts as a tool to create a resilient and stable society minimise gap between two disconnected communities.

EXECUTIVE PROJECT SUMMARY

The *Disability Arts* is an arts-led multiyear project that will be aimed at building understanding and confidence amongst the disability and arts sectors in Bangladesh and bring them together to bridge the gap between the disability sectors and wider society. The project will develop the capacity of the artists and the people with disability through a series of training and capacity development programmes in eight divisional cities in Bangladesh, in partnership with UK artists and arts organisations.

The project has been designed focusing on Bangladesh Arts as the core component. There will be a divisional training programme designed to maximise the reach of the project, which will develop the artists' and arts organisations' skills to equip them to be able to work with people with disability. Support will be provided to the local artists and disability communities through improved communication, to engage with local and national institutions for reducing barriers on integrating disability towards an inclusive society.

British Council will also support the creation of a sustainable national platform to share the best practices and develop skills and knowledge by connecting with South Asian and the UK's disability arts practitioners. The project will ensure that best practices and methods for working with the disability sector will be identified and transfer to the Bangladeshi Disability Arts sector for maximum outreach.

Stage 1: Tender responses will be checked to ensure that they have been completed correctly and all information being provided will proceed to Stage 2. Any tender responses not correctly completed in accordance with the requirements of this RFP and/or containing omissions may be rejected at this point. Where a tender response is rejected at this point it will automatically be disqualified and will not be further evaluated.

Stage 2: The completed Qualification Questionnaire (*if used*) will then be reviewed to confirm that the potential supplier meets all of the qualification criteria set out in the questionnaire. Potential suppliers that meet the qualification criteria will proceed to Stage 3. Potential suppliers that do not meet the qualification criteria set out in the Qualification Questionnaire (*if used*) may be excluded from the Procurement Process at this point. Where a potential supplier is excluded at this point, its tender response will be rejected in full and not evaluated further and the supplier will automatically be disqualified from this Procurement Process.

Stage 3: If a bidder succeeds in passing Stages 1 and 2 of the evaluation, then it will have its detailed tender response to the British Council's requirements evaluated in accordance with the evaluation methodology set out below. Information provided as part of Qualification Questionnaire (*if used*) responses may also be verified as part of this stage.

14.2 Award Criteria – Responses from potential suppliers will be assessed to determine the most economically advantages tender using the following criteria and weightings and will be assessed entirely on your response submitted:

Criteria	Weighting
Experience in disability sector and arts sector	20%
Experience in curation, policy work, arranging dialogues, research	30%
Proposal	20%
Commercial	30%

14.3 Scoring Model – Tender responses will be subject to an initial review at the start of Stage 3 of the evaluation process. Any tender responses not meeting mandatory requirements or constraints (if any) will be rejected in full at this point and will not be assessed or scored further. Tender responses not so rejected will be scored by an evaluation panel appointed by the British Council for all criteria other than Commercial using the following scoring model:

Points	Interpretation
10	Excellent – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas evidence requested in the level of detail requested. This, therefore, is a detailed excellent response that meets all aspects of the requirement leaving no ambiguity as to whether the bidder can meet the requirement.
7	Good – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas of evidence requested, but contains some trivial omissions in relation to the level of detail requested in terms of either the response or the evidence. This, therefore, is a good response that meets all aspects of the requirement with only a trivial level ambiguity due the bidders failure to provide all information at the level of detail requested.
5	Adequate – Overall the response demonstrates that the bidder meets all areas of the requirement, but not all of the areas of evidence requested have been provided. This, therefore, is an adequate response, but with some limited ambiguity as to whether the bidder can meet the requirement due to the bidder’s failure to provide all of the evidence requested.
3	Poor – The response does not demonstrate that the bidder meets the requirement in one or more areas. This, therefore, is a poor response with significant ambiguity as to whether the bidder can meet the requirement due to the failure by the bidder to show that it meets one or more areas of the requirement.
0	Unacceptable – The response is non-compliant with the requirements of the RFP and/or no response has been provided.

14.4 Commercial Evaluation – Your “Overall Price” for the goods and/or services will be evaluated by the evaluation panel for the purposes of the commercial evaluation. Prices must not be subject to any pricing assumptions, qualifications or indexation not provided for explicitly by the British Council as part of the pricing approach. In the event that any prices are expressed as being subject to any pricing assumptions, qualifications or indexation not provided for by the British Council as part of the pricing approach, the British Council may reject the full tender response at this point. The British Council may also

reject any tender response where the Overall Price for the goods and/or services is considered by the British Council to be abnormally low following the relevant processes set out under the EU procurement rules. A maximum offer score of 10 will be awarded to the tender response offering the lowest “Overall Price”. Other tender responses will be awarded a mark by application of the following formula: (Lowest Overall Price/Overall Price being evaluated) x 10 (rounded to two decimal places) = commercial score.

14.5 Moderation and application of weightings – The evaluation panel appointed for this procurement will meet to agree and moderate scores for each award criteria. Final scores in terms of a percentage of the overall tender score will be obtained by applying the relevant weighting factors set out as part of the award criteria table above. The percentage scores for each award criteria will be amalgamated to give a percentage score out of 100.

14.6 The winning tender response – The winning tender response shall be the tender response scoring the highest percentage score out of 100 when applying the above evaluation methodology, which is also supported by any required verification evidence (to include, without limitation, any updated information or references relating to any Qualification Question responses) obtained by the Authority relating to any self-certification or other requirements referred to in the Qualification Questionnaire (*if used*). If any verification evidence requested from a supplier, or a relevant third party as may be referred to by the supplier in the Qualification Questionnaire (*if used*) as a party prepared to provide such information, is not provided in accordance with any timescales specified by the British Council and/or any evidence reviewed by the British Council (whose decision shall be final) does not demonstrate compliance with any such requirement, the British Council may reject that tender response in full and disqualify the potential winning supplier from the Procurement Process at that point.
