Section I. Instructions to Offerors

I.1. Introduction

Chemonics, the Buyer, acting on behalf of the U.S. Agency for International Development (USAID) and the Advancing Universal Health Coverage (AUHC) activity, under contract number AID-388-C-17-00001 is soliciting offers from companies and organizations to submit proposals to participate with AUHC to carry out a comprehensive perception analysis for AUHC's Subcontractor, the Surjer Hashi Network (SHN).

The Advancing Universal Health Coverage Activity (AUHC) is a six-year project (2017-2023) financed by USAID and implemented by Chemonics International and partners that supports the Government of Bangladesh's efforts in achieving universal health coverage (UHC) by providing the people of Bangladesh with high-quality, affordable primary care through a sustainable nationwide not-for-profit healthcare network.

Building on the strong brand recognition of Smiling Sun Clinics, the AUHC project is aimed at supporting the transition of the Smiling Sun clinics to a unified, sustainable, gender sensitive pro-poor social enterprise (the Surjer Hashi Network) through developing innovative business models, creating evidence-based health service packages for the poor, and experimenting with new health service delivery options that will increase access to a wider range of services. Through the period of performance, AUHC has centered on five key objectives:

1. Develop and implement a program to transform the Smiling Sun Network into a centrally managed, sustainable not-for-profit social enterprise
2. Adopt proven innovative approaches to create new strategies to expand access to and uptake of essential service packages
3. Develop and implement sustainable financial systems to facilitate expanded coverage and ensure equitable access to health services
4. Improve the quality of care
5. Improve program strategies drawn from lessons learned (crosscutting)

In the project's sixth year, AUHC will be focused around three Results which are summarized below:

1. Improve self-reliance to achieve sustainability of the Surjer Hashi Network
2. Improve utilization and quality of SHN's essential primary healthcare services in the clinics
3. Provide equitable access to health services in hard-to-reach Chattogram Hill Tracts through Smiling Sun Green Hill clinics

Based on AUHC's result areas for Year 6 as stated above, AUHC intends to award a subcontract to an Offeror to investigate and analyze overall perception of the Surjer Hashi Network, identifying the specific areas in which perception has shifted, particularly in the five years since the inception of the AUHC project. This perception analysis will analyze the public's sentiments about the SHN brand, service, and demand for the clinics. From this analysis, the Offeror will then prescribe recommendations and corrective measures that would help SHN to focus on specific areas for change to improve its brand perception.

Offerors are invited to submit proposals in response to this RFP in accordance with **Section I Instructions to Offerors**, which will not be part of the subcontract. The instructions are intended to assist interested Offerors in the preparation of their offer. Any resulting subcontract will be guided by Sections II and III.

This RFP does not obligate Chemonics to execute a subcontract nor does it commit Chemonics to pay any costs incurred in the preparation and submission of the proposals. Furthermore, Chemonics reserves the right to reject any and all offers, if such action is considered to be in the best interest of Chemonics.

Unless otherwise stated, the periods named in the RFP shall be consecutive calendar days.

Evaluation points will not be awarded for cost, but for overall evaluation purposes of this RFP, technical evaluation factors other than cost, when combined, are considered significantly more important than cost factors. Section II Background, Scope of Work, Deliverables, and Deliverables Schedule

II.1. Background

Surjer Hashi Network (SHN) has been operating many clinics all over the country providing health and family planning services primarily to the poor and the ultra-poor people. Funded by USAID since 1997. About 400 clinics were later consolidated and registered as Surjer Hashi Network (SHN) in 2018 as a not-for-profit entity with a mission to provide quality and affordable health service to all Bangladeshis having mother and child health care in its focus.

Over the decades, GoB service expansion and other NGO initiatives eventually divided the customers and led to low demand for SHN services and the need to adopt an optimization exercise started in 2019 by SHN with the support of the Advancing Universal Health Coverage (AUHC) project of USAID. The exercise identified 134 clinics that could potentially help SHN to become financially sustainable in the future. As it operates 134 clinics currently, the organization has an explicit mandate of achieving a double bottom line i.e., health impact by providing quality health services to the low-middle income group and meeting financial sustainability goals. To meet the growing demand for quality health care service among the urban poor, SHN has strategically realigned its focus to more of the low to middle-income urban/semi-urban population. Check more at <https://www.shmnetwork.org/about>.

To support this realignment, in 2021-22 SHN has taken initiatives that are expected to have impacted the traditional perception of these clinics to the audience. Going forward, SHN wants to investigate and discover the specific areas where the perception shift has occurred, what are the people's sentiments about the brand, the service, and the demand of the company, and prescribe directions, and corrective measures that would help SHN to have a focus on specific areas of change.

II.2. Scope of Work

AUHC requires the participating firm to investigate the operational fields to identify and convey a comprehensive representation of the perception of SHN at the local level and at the network level. The perception should include the brand, and the network of the clinic's standing as a not-for-profit social enterprise against the long-established idea of NGO-funded free for all service, pricing, service awareness, and quality. Quality should be further drilled down to service quality, facility quality, investigation (lab accuracy and dependability), and consultation quality (reliability of the caregivers).

The investigation should also register the financial status in a non-intrusive way of respondents if they are long-term or short-term customers of SHN, what is the best quality of SHN that drives them and if they are likely to recommend or carry word of mouth to someone, they know about the services of the experience the individual had with SHN.

A comparative analysis is expected between privately owned and govt. owned healthcare providers in the service area and in the scale where the SHN clinic is positioned and what is required for them to perform.

Objectives

- To understand how people's sentiment is driven by the SHN brand and clinic experience.
- Identify the factors where patients consider alternate healthcare solutions.

- Generate insights on what kind of experience, knowledge, or communication trigger patients towards SHN.

Methodology:

The consulting firm/consultant will create an appropriate methodology to capture the perception of the nationwide clinic system from multiple angles and will recommend an appropriate sample size and tool against each of the data collection activities.

The following structure may be used as a reference to the methodology and the granularity expected from the analysis.

Reference structure

Collect data by employing a variety of quantitative and qualitative methods which include patient interviews, Household surveys, Focus Group Discussions (FGDS), and Key informant interviews (KIIs).

Surveys: The field survey with households is envisaged to be carried out with a sample that will provide statistically valid conclusions. The field survey will be based on the following type of sample:

- *A balanced mix of urban, municipal, and rural clinics (min 30 clinics??).*
- *Stratified multi-stage random sampling.*
- *Sample size: around a statistically acceptable number of households & patients at the clinics.*
- *Responses will need to be gender-balanced - 20% male and 80%, female.*
- *A separate sample group of non-patients: who are near the clinic about their likeness to take service from the SHN clinic.*

Focus group discussions (FGD): The number, area, and participants for FGD will be decided through consultation with AUHC.

Key Informant Interview (KII): The key informants will be identified and selected through consultation with SHN and AUHC.

In addition to contractual remedies, Chemonics may make the Subcontractor's failure to comply with the reporting requirements a part of the Subcontractor's performance information record.

Annex 2 Guide to Creating a Financial Proposal for a Fixed Price Subcontract

The purpose of this annex is to guide offerors in creating a budget for their cost proposal. Because the subcontract will be funded under a United States government-funded project, it is important that all offerors' budgets conform to this standard format. It is thus strongly recommended that offerors follow the steps described below.

Under no circumstances may cost information be included in the technical proposal. No cost information or any prices, whether for deliverables or line items, may be included in the technical proposal. Cost information must only be shown in the cost proposal.

Step 1: Design the technical proposal. Offerors should examine the market for the proposed activity and realistically assess how they can meet the needs as described in this RFP, specifically in section II. Offerors should present and describe this assessment in their technical proposals.

Step 2: Determine the basic costs associated with each deliverable. Offerors should consider best estimate of the costs associated with each deliverable, which should include labor and all non-labor costs, e.g. other direct costs, such as fringe, allowances, travel, and transport, etc.

Step 3: Create a budget for the cost proposal. Each offeror must create a budget using a spreadsheet program compatible with MS Excel. The budget period should follow the technical proposal period. A sample budget is shown on the following page. All items and services must be clearly labeled and include the total offered price. The detailed budget must show major line items, including, for example:

1. Salaries
2. Indirect costs
3. Any other costs applicable to the work
4. DBA – see clause I. 11

All cost information must be expressed in Bangladeshi Taka.

Step 4: Write Budget Narrative. The spreadsheets shall be accompanied by written notes in MS Word that explain each cost line item and the assumption why a cost is being budgeted as well as how the amount is reasonable. Supporting information must be provided in sufficient detail to allow for a complete analysis of each cost element or line item. Chemonics reserves the right to request additional cost information if the evaluation committee has concerns of the reasonableness, realism, or completeness of an offeror's proposed cost.

If it is an offeror's regular practice to budget indirect rates, e.g. overhead, fringe, G&A, administrative, or other rate, Offerors must explain the rates and the rates' base of application in the budget narrative. Chemonics reserves the right to request additional information to substantiate an Offeror's indirect rates.

Sample Budget

Offerors should revise the budget line items accordingly in response to the technical and cost requirements of this RFP.

Annex 4 UEI and SAM Registration Guidance

What is an UEI Number?

The Unique Entity Identifier, or the UEI, is the official name of the “new, non-proprietary identifier” that will replace the DUNS number. The UEI will be requested in, and assigned by, the System for Award Management (SAM.gov). Businesses and organizations who receive funding from the US government will have to use a Unique Entity Identifier (UEI) created in SAM.gov. The UEI number helps the USG to identify companies.

Why am I being requested to obtain a UEI number?

U.S. law – in particular the Federal Funding Accountability and Transparency Act of 2006 (Pub.L. 109-282), as amended by section 6202 of the Government Funding Transparency Act of 2008 (Pub.L. 110-252) - make it a requirement for all entities doing business with the U.S. Government to be registered, currently through the System for Award Management, a single, free, publicly- searchable website that includes information on each federal award. As part of this reporting requirement, prime contractors such as Chemonics must report information on qualifying subawards as outlined in FAR 52.204-10 and 2CFR Part 170. Chemonics is required to report subcontracts with an award valued at greater than or equal to \$30,000 under a prime contract and subawards under prime grants or prime cooperative agreements obligating funds of \$25,000 or more, whether U.S. or locally based. Because the U.S. Government uses UEI numbers to uniquely identify businesses and organizations, Chemonics is required to enter subaward data with a corresponding UEI number.

Is there a charge for obtaining a UEI number?

No. Obtaining a UEI number is absolutely free for all entities doing business with the Federal government. This includes current and prospective contractors, grantees, and loan recipients.

How do I obtain a UEI number?

UEI numbers can be obtained online at SAM.gov.

What information will I need to obtain a UEI number?

To request a UEI number, you will need to provide the following information:

- Legal name and structure
- Tradestyle, Doing Business As (DBA), or other name by which your organization is commonly recognized
- Physical address, city, state, and Zip Code
- Mailing address (if separate)
- Telephone number
- Contact name
- Number of employees at your location
- Description of operations and associated code (SIC code found at <https://www.osha.gov/pls/imis/sicsearch.html>)
- Annual sales and revenue information
- Headquarters name and address (if there is a reporting relationship to a parent corporate entity)

How long does it take to obtain a UEI number?

The UEI number is issued immediately upon completion of the request process.

Are there exemptions to the UEI number requirement?

There may be exemptions under specific prime contracts, based on an organization's previous fiscal year income when selected for a subcontract award, or Chemonics may agree that registration is impractical in certain situations. Organizations may discuss these options with the Chemonics representative.

What is CCR/SAM?

Central Contractor Registration (CCR)—which collected, validated, stored, and disseminated data in support of agency acquisition and award missions—was consolidated with other federal systems into the System for Award Management (SAM). SAM is an official, free, U.S. government-operated website. There is NO charge to register or maintain your entity registration record in SAM.

When should I register in SAM?

While registration in SAM is not required for organizations receiving a grant under contract, subcontract, or cooperative agreement from Chemonics, Chemonics requests that partners register in SAM if the organization meets the following criteria requiring executive compensation reporting in accordance with the FFATA regulations referenced above. SAM.gov registration allows an organization to directly report information and manage their organizational data instead of providing it to Chemonics. Reporting on executive compensation for the five highest paid executives is required for a qualifying subaward if in your business or organization's preceding completed fiscal year, your business or organization (the legal entity to which the UEI number belongs):

- (1) received 80 percent or more of its annual gross revenues in U.S. federal contracts, subcontracts, loans, grants, subgrants, and/or cooperative agreements; **and**
- (2) \$25,000,000 or more in annual gross revenues from U.S. federal contracts, subcontracts, loans, grants, subgrants, and/or cooperative agreements; **and**,
- (3) The public **does not** have access to information about the compensation of the executives in your business or organization (the legal entity to which the UEI number it provided belongs) through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the US Internal Revenue Code of 1986.

If your organization meets the criteria to report executive compensation, the following sections of this document outline the benefits of and process for registration in SAM.gov. Registration may be initiated at <https://www.sam.gov>. There is NO fee to register for this site.

Why should I register in SAM?

Chemonics recommends that partners register in SAM to facilitate their management of organizational data and certifications related to any U.S. federal funding, including required executive compensation reporting. Executive compensation reporting for the five highest paid executives is required in connection with the reporting of a qualifying subaward if:

- a. In your business or organization's preceding completed fiscal year, your business or organization (the legal entity to which the UEI number belongs) received (1) 80 percent or more of its annual

gross revenues in U.S. federal contracts, subcontracts, loans, grants, subgrants, and/or cooperative agreements; and (2) \$25,000,000 or more in annual gross revenues from U.S. federal contracts, subcontracts, loans, grants, subgrants, and/or cooperative agreements; and,

- b. The public have does not have access to information about the compensation of the executives in your business or organization (the legal entity to which the UEI number it provided belongs) through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986.

What benefits do I receive from registering in SAM?

By registering in SAM, you gain the ability to bid on federal government contracts. Your registration does not guarantee your winning a government contract or increasing your level of business. Registration is simply a prerequisite before bidding on a contract. SAM also provides a central storage location for the registrant to supply its information, rather than with each federal agency or prime contractor separately. When information about your business changes, you only need to document the change in one place for every federal government agency to have the most up-to-date information.

How do I register in SAM?

Follow the step-by-step guidance for registering in SAM for assistance awards (under grants/cooperative agreements) at: https://www.fsd.gov/sys_attachment.do?sys_id=d4d157741ba3c5103565ed3ce54bcb0

You must have a UEI number in order to begin either registration process.

If you already have the necessary information on hand (see below), the online registration takes approximately one hour to complete, depending upon the size and complexity of your business or organization.

What data is needed to register in SAM?

SAM registrants are required to submit detailed information on their company in various categories. Additional, non-mandatory information is also requested. Categories of required and requested information include:

* General Information - Includes, but is not limited to, UEI number, CAGE Code, company name, Federal Tax Identification Number (TIN), location, receipts, employee numbers, and web site address.
