Type of Contract :	Individual or Institutional or Organizational
Submit Quotation to :	Max Foundation, HVU Programme
Quotation Submission Date :	16 th October December, 2024
Mode of Selection :	Competitive

Overview of Max Foundation

Max Foundation, a Dutch based INGO established in 2004, fights child mortality with an integrated approach, and consists of WASH, safe motherhood, reproductive health, child nutrition and stunted growth prevention.

Under the HVU- program of the organization a Social Behavior Change Communication strategy has been developed to improve behavior practices of community people and school going students. Therefore, to do the job efficiently and through effective manner, Max Foundation, Bangladesh has developed a set of IEC/BCC materials under the communication strategy targeting courtyard groups and school that will comfort its staffs as well as NGOs to communicate with courtyard members and school students under the program. So, Max Foundation, Bangladesh Country Office is seeking an individual or institution or an organization to have a successful drive for printing and delivery of all required materials developed within timeline with quantity and expected quality.

1. Objective of the Procurement

The main objective of the procurement is to collect quotation for comparative analyses and selection of vendor/vendors for **printing** of developed IEC/BCC materials under HVU program.

1.1 Specific Objectives of the Procurement

- Printing of IEC/SBCC materials for community to conduct courtyard session in different groups for year2024 and onward.

2. Scope of Work:

The vendor is expected to undertake the following task to deliver the objectives:

The vendor will be taking the lead to print all materials and deliver at right place at right quantity and quality. However, the assigned institution/individual will have to complete the following activities as per noted below-

- Understanding designs, specifications, color compliances, sizes etc. to select the technical issues to print materials as per the quality.
- Identifying the type & total number of materials to be printed as well as concerning delivery time.
- Gathering required quality branded raw materials/papers/sheets/PVC and other logistics, machineries and resources to print all materials in time.
- Before final printing of all materials, vendor has to submit a printed draft copy of all materials for correction or required changes.
- Sharing a detailed work plan considering printing of draft/trial versions, final materials and delivery to agreed locations.

3. Expected Deliverables
