

Log-frame Descriptor (Goal/Outcome/Output)	Indicator/s	Baseline (including year and source of data)	Project cumulative Target	Y1	Y2	Y3	Y4	Means of Verification (how will it be measured?)	Responsibility	Frequency
				Target	Target	Target	Target			
Goal: All girls and boys particularly children with disabilities (CWDs) and children affected by AIDS (CABA) in 20 targeted communities live free from all forms of violence and are better protected through strengthened local community systems and family care	Number and percentage of targeted girls and boys including CWDs and CABA experienced no violence and humiliation at home, community and schools during past 6 months	TBD*	TBD**	TBD***	TBD***	TBD***	TBD***	Baseline, midterm and endline survey	External consultant	Baseline, midterm and endline
	Number and percentage of targeted girls and boys including CWDs and CABA confirmed that they feel safe and receive adequate care from their families, communities and schools	TBD	TBD	TBD	TBD	TBD	TBD	Baseline, midterm and endline survey	External consultant	Baseline, midterm and endline
Outcome 1: Targeted girls and boys including CWDs and CABA in chosen communities are better protected through improved family care and aware of local child protection response mechanisms.	Number and percentage of parents in targeted communities demonstrate improved positive discipline in everyday parenting	TBD	TBD	TBD	TBD	TBD	TBD	Baseline, midterm, endline, PDEP pre and post assessment report	External consultant (baseline and endline) and project staffs (progress measurement survey)	Yearly
	Number and percentage of targeted girls and boys including CWDs and CABA experienced no physical and humiliating punishment from their families during last six months	TBD	TBD	TBD	TBD	TBD	TBD	Baseline, midterm, endline and project progress report	External consultant (baseline and endline) and project staffs (progress measurement survey)	Yearly
	Number and percentage of targeted girls and boys including CWDs and CABA have better knowledge and awareness on child rights and local CP response mechanisms	TBD	TBD	TBD	TBD	TBD	TBD	Baseline, midterm, endline and pre & post training assessment	External consultant (baseline and endline) and project staffs (progress measurement survey)	Yearly
	Number and percentage of targeted girls and boys including CABA and CWDs demonstrated increased confidence and wellbeing as a result of resilience training.	TBD	TBD	TBD	TBD	TBD	TBD	Baseline, midterm, endline and pre & post training assessment	External consultant (baseline and endline evaluation) and project staffs (progress measurement survey)	Yearly
	Number and percentage of targeted girls and boys including CABA and CWDs confirmed that they are not fearful to communicate violence related issues with parents/families	TBD	TBD	TBD	TBD	TBD	TBD	Baseline, midterm, endline and project progress report	External consultant (baseline and endline) and project staffs (progress measurement survey)	Yearly
Outcome 2: CWDs and CABA are accepted and better protected by community members with reduced prevalence of stigma, violence and discrimination.	Number and percentage of community members in targeted areas have zero acceptance of abuse, negligence and violence against girls and boys particularly CWDs and CABA	TBD	TBD	TBD	TBD	TBD	TBD	Baseline, midterm, endline and project progress report	External consultant (baseline and endline) and project staffs (progress measurement survey)	Yearly
	Number and percentage of targeted girls and boys including CWDs and CABA experienced no violence and humiliation from the community and feel better protected	TBD	TBD**	TBD***	TBD***	TBD***	TBD***	Baseline, midterm and endline survey	External consultant	Baseline, midterm and endline
	Number and percentage of child clubs and parent groups have a functioning mechanism to respond and intervene in child protection risks of CWDs, CABA and other girls and boys in 20 communities	0	48	48	48	48	48	Project progress report, group formation record	Project staffs	Yearly

Log-frame Descriptor (Goal/Outcome/Output)	Indicator/s	Baseline (including year and source of data)	Project cumulative Target	Y1	Y2	Y3	Y4	Means of Verification (how will it be measured?)	Responsibility	Frequency
				Target	Target	Target	Target			
Outcome 3: Strengthened national and local level government systems, authorities and committees engaged collaboratively to respond and intervene to improve the gender equal protection, care and welfare of girls and boys at risk including CWDs and CABA.	Number and percentage of identified girls and boys including CWDs and CABA obtain regular access to basic education, health and therapeutic services as needed	TBD	TBD	TBD	TBD	TBD	TBD	Baseline, midterm, endline and project progress report	External consultant (baseline and endline) and project staffs (progress measurement survey)	Yearly
	Number and percentage of CBCPCs that have a functioning mechanism to respond and intervene in child protection risks of CWDs, CABA and other girls and boys in 20 communities	0	30	30	30	30	30	CBCPC assessment	Project staffs	Semi-annually
	Number of government residential institutions for CWDs implement UN minimum standards of care	TBD	TBD	TBD	TBD	TBD	TBD	Baseline and midterm, endline	External consultant	Baseline and midterm and endline
	Number and Percentage of families requiring support in the targeted communities who have access to social protection schemes	TBD	TBD	TBD	TBD	TBD	TBD	Baseline, midterm, endline and project progress report	External consultant (baseline and endline) and project staffs (progress measurement survey)	Yearly
Outputs under Outcome 1: All girls and boys including CWDs and CABA in targeted communities are better protected through improved family care and aware of local child protection response mechanisms										
Output 1.1: Children and parents/caregivers trained on resilience, child rights and protection.	Number of CWDs and their parents/caregivers received resilience building training.	0	2200	275	642	642	641	Project progress report, training register	Project staffs	Quarterly
	Number of children and parents/ caregivers of CABA received training on rights and protection.	0	1800	240	600	600	360	Project progress report, training register	Project staffs	Quarterly
Output 1.2: Capacity of parents developed on Positive Discipline in Everyday Parenting (PDEP)	Percentage of parents, caregivers, teachers participating in positive discipline and parenting programs who understand what positive discipline is	0	TBD	TBD	TBD	TBD	TBD	PDEP post training report	Project staffs	Yearly
	Number of parents/caregivers received Positive Discipline in Everyday Parenting (PDEP) training	0	720	90	270	225	135	Project progress report, training register	Project staffs	Quarterly
Outputs under Outcome 2: CWDs and CABA are accepted and better protected by community members with reduced prevalence of stigma, violence and discrimination.										
Output 2.1: Community members sensitized to reduce stigma and discrimination faced by CABA and CWDs.	Number of courtyards sessions organized with neighbours of CABA and CWDs.	0	144	36	36	36	36	Project progress report, session register	Project staffs	Quarterly
	Number of children and adults participated in preventive and awareness raising activities related to child protection.	0	5760	1440	1440	1440	1440	Project progress report, event report	Project staffs	Quarterly
Output 2.2: Capacity of community based groups and individuals (e.g. child clubs, parents groups) strengthened to respond to violence, stigma and discrimination faced by CABA and CWDs.	Number of members from child clubs and parents groups received training/orientation.	0	720	720	720	720	720	Project progress report, training register	Project staffs	Yearly
	Number of community children participated in the orientation session on rights and protection.	0	3480	340	1400	1400	340	Project progress report, tracking register	Project staffs	Yearly

Log-frame Descriptor (Goal/outcome/Output)	Indicator/s	Baseline (including year and source of data)	Project cumulative Target	Y1	Y2	Y3	Y4	Means of Verification (how will it be measured?)	Responsibility	Frequency
				Target	Target	Target	Target			
	Number of child clubs and parents groups formed.	0	48	48	0	0	0	Project progress report, service register	Project staffs	Yearly
Outputs under Outcome 3: Strengthened national and local level government systems, authorities and committees engaged collaboratively to respond and intervene to improve the gender equal protection, care and welfare of girls and boys at risk including CWDs and CABA.										
Output 3.1: Capacity of community based child protection committees (CBCPCs) strengthened to prevent and respond to violence, stigma and discrimination faced by children.	Number of CBCPCs established in project locations.	0	30	30	0	0	0	Project progress report	Project staffs	Quarterly
	Number of CBCPC members received training on rights and protection issues of CWDs and CABA,	0	330	330	330	330	330	Project progress report, training register	Project staffs	Quarterly
	Number of members of CBCPCs, parents groups, and child clubs attended coordination meetings.	0	450	450	450	450	450	Project progress report, meeting minutes	Project staffs	Quarterly
Output 3.2: Increased capacity and skills of service providers (e.g. health professionals, staff of One Stop Crisis Center) in delivering quality services for CABA and CWDs.	Number of staffs from Social Welfare department, Health department and One Stop Crisis Center (OCC) received training from the project.	0	90	45	45	0	0	Project progress report, training register	Project staffs	Quarterly
	Number of school teachers received training on management of CWDs in classrooms and inclusive education.	0	120	0	120	0	0	Project progress report, training register	Project staffs	Quarterly
	Number of school management committee members, teachers and student participated in the awareness raising meetings.	0	900	900	900	900	900	Project progress report	Project staffs	Quarterly
Output 3.3: Families of CABA and CWDs received services from government and NGO (e.g. health, therapeutic, rehabilitation, psychosocial, livelihoods, education, and protection).	Number of project beneficiaries from targeted household received TVET support through linkage as part of the project initiative.	0	45	0	45	0	0	Project progress report, TVET record	Project staffs	Quarterly
	Number of children (CABA and CWDs) received therapeutic and psychosocial support.	0	1050	150	300	300	300	Project progress report, tracking register	Project staffs	Quarterly
	Number of children (CABA and CWDs) referred to the required services (government and private).	0	2130	324	657	660	489	Project progress report, referral register	Project staffs	Quarterly
Output 3.4: Standards developed for institutions for CWDs following UN minimum standards of care.	Number of workshop/meetings conducted with Deputy Directors and other staff of the DSS at local level.	0	24	6	6	6	6	Project progress report, tracking register	Project staffs	Quarterly
	Number of staffs from institutions received capacity building support from the project.	0	60	60	0	0	0	Project progress report, training register	Project staffs	Quarterly
Output 3.5: Advocacy conducted with relevant government ministries (national and local) to increase utilization of social protection schemes for CABA and CWDs.	Advocacy strategy developed and implemented for inclusion of CABA and CWDs in social protection schemes	0	1	1	0	0	0	Strategy document	Project staffs	once
