£3,650.00

[ADD TO QUOTE REQUEST](#)

[Description](#)
[Specification](#)

A diesel powered pump set with hoses and equipment. Designed to handle mud, sludge, sewage and other thick liquids that flow. The kit is supplied ready for immediate use, with suction and delivery hoses. Service parts are included for the first year of use.

User notes

Warning

The performance of a desludging pump will always be limited by two factors that are common in latrines:

- 1) The fluid being too thick or heavy to flow
- 2) Debris in the sludge blocking the inlet

Rigid delivery hose is used to prevent hose collapse and clogging. It is recommended to pump water to clear the sludge after using the pump.

Ready To Ship: 2 days

Made In: United Kingdom

Packaging: Wooden Crate

Item Dimensions (cm): 105 x 105 x 102

Volume (m³): 1.125

Weight (kg): 183
